

Features

Lightweight and Compact Design

The Travel Buggy weighs only 50lbs and can be easily folded into a compact design without removing any parts.

Exceptional Travel Range

Powered by highly efficient lithium-ion batteries, The Travel Buggy can cruise over 300 city blocks on a single charge.

Airplane Friendly

Each of our electric wheelchairs are approved for airplane travel by the FAA and various other travel authorities.

- Easy to Fold -

OUR STORY

The Travel Buggy is a Canadian owned and operated corporation that was started for our parents.

As our parents continued to age and difficulty with mobility became a natural progression, we recognized that there were no mobility aids available that were easy to travel with. For all the cruisers, mobility scooters, and power chairs out there, none were truly portable. Instead, they were all big, heavy, cumbersome and expensive!

We thought – what if there was a more functional electric wheelchair that traveled easily, and was foldable, compact, light and affordable!? Since we couldn't find one, we designed our own, The Travel Buggy.

THE TRAVEL BUGGY

Portable Electric Wheelchair

FIND YOUR ADVENTURE

CITY LITE

Description

Our City Lite model is the lightest and most compact of our designs, but don't let its lightweight fool you. Its high strength aluminum alloy frame can still support up to 265 lbs and travel 12.5 miles on a single battery charge. With an optional second battery, the City Lite allows our users to travel up to 25 miles on a single charge, making it the longest-range model we carry.

Technical Specs

Max Load: 120 kg/265 lbs

Max Speed: 6 kph/3.7 mph

Max Distance:

20 km/12.5 miles

40 km/25 miles (Optional Second Battery)

Net Weight:

19 kg/42 lbs (Without Battery)

21 kg/46 lbs (With Battery)

Tires: 8" PU solid tire (Back)

Motor: 2 x 180W brushless motors

Battery: Lithium 24V/10AH

Folded (L x W x H): 24" x 10" x 30"

CITY

Description

The City model was designed for absolute versatility. Featuring large 12" rear wheels, two powerful electric motors and the highest ground clearance of all models, the City is capable of devouring nearly every terrain imaginable. Our City model also comes with two long-range lithium-ion batteries as standard, making it a comfortable ride at a price point unmatched for its capability.

Technical Specs

Max Load: 180 kg/396 lbs

Max Speed: 6 kph/3.7 mph

Max Distance: 25 km/15.5 miles

Net Weight:

23.5 kg/52 lbs (Without Battery)

26.5 kg/58.5 lbs (With Battery)

Tires: 12" PU solid tire (Back)

Motor: 2 x 250W brushless motors

Battery: 2 x Lithium 24V/6AH

Folded (L x W x H): 24" x 13" x 31"

Feel free, move free

Enjoy the feeling of freedom, that's the feeling we want to capture when we design our products.

Why Choose the Travel Buggy?
